

ZEISS Digital ClearMind lenses

ZEISS Digital ClearMind lenses provide accommodative support in the lower lens part for comfortable reading of close-up objects.

Consumer benefits

- Extremely clear vision all day long.
- Vitalized eyes that feel less tired after a long day thanks to an extra boost in the near-vision zone that supports close-up tasks.
- Reduced mental effort.

Up to **7%** larger zones of clear vision than ZEISS standard digital lenses for intermediate distance.¹

Up to **28%** larger zones of clear vision than ZEISS standard digital lenses for near distance.¹

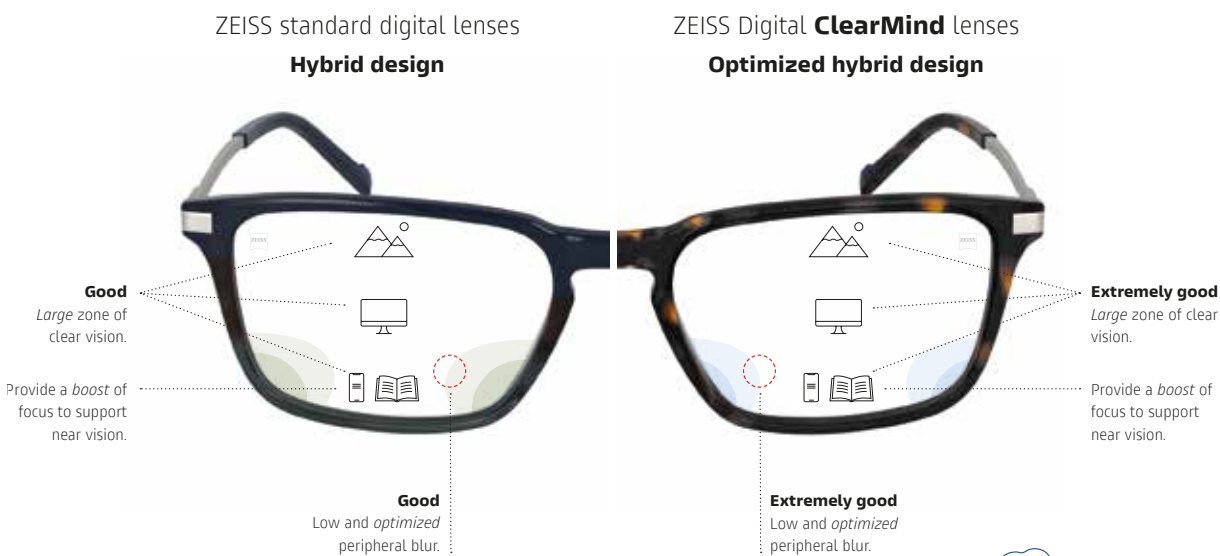

Up to **11%** less blur towards the edges compared to ZEISS standard digital lenses¹

ZEISS Digital ClearMind Lenses

See Clearly. Think Clearly.

Extremely clear vision.
Designed to reduce the cognitive load.

ZEISS Digital ClearMind lenses incorporate innovative **ZEISS NeuroOptix technology**, utilizing advanced design intelligence that integrates neuroscience principles to optimize lens design. ZEISS NeuroOptix technology aligns the lens clarity zones with natural eye movement patterns, **delivering large clear vision zones.**¹ This reduces the cognitive load on the brain, providing relaxed, effortless vision and enhanced comfort throughout long days filled with visual stimuli.

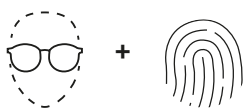

Up to **28%** larger zones of clear vision.²

85% of wearers confirm that the ZEISS Digital ClearMind lenses provide an extra stress reduction for their eyes.³

75% of wearers confirm that it feels easier for them to stay focused with these lenses.

By the way
Vision zones schematically illustrated here are less perceptible in reality.

ZEISS Digital ClearMind lenses are designed for people experiencing early signs of aging vision and are good practice for eventually transitioning to progressive lenses.

ZEISS Digital ClearMind lenses come in 2 tiers: Superb and Individual 3. Individual 3 tier considers individual anatomy and special vision needs to get the most out of the customized lens design for any patient.
